

Trench It TCT Fairway & SGH Hopper Package

Complete drainage equipment package for all your projects

Features of the **TCT Fairway:**

- This versatile, small robust trencher was designed for the installation of drainage and irrigation systems, and is equally suitable for laying pipes and cables.
- Provides neat and economical high speed trenching.
- PTO driven chain trencher that provides a complete soil clear up system and clean tidy trench.
- Designed for tractors with horse power from 40-60 HP with hydrostatic transmission or creep gears.

Features of the **SGH Hopper:**

- Perfect tool for backfilling narrow trenches with both gravel and/or sand.
- Hydraulic shute that opens and closes.
- Simple and economical.
- Mounts onto 3 Point Linkage of the tractor.
- Hydraulic Agitator for fast flow of sand.

Specifically designed to work on golf courses, sports fields and amenity surfaces. Our equipment is used by leading contractors, golf clubs and sports facilities across the globe.

The ideal package to quickly install drainage systems with minimal disruption to play. Low maintenance equipment, built to last and made in New Zealand.
